Our website <http://crackmypdf.com> (the “**Website**”) uses cookies. In this cookie policy, we explain in detail what cookies we use, for what purposes we use them and how you can decline our use of cookies. If you do not agree with our use of cookies, please disable your cookies as described in the section “How to disable cookies?” Please beware that the full functionality of the website may not be available without cookies.

2. What is a cookie?

A cookie is a small piece of data or a text file that is downloaded to your computer or mobile device when you access certain websites. Cookies may contain text that can be read by the web server that delivered the cookie to you. The text contained in the cookie generally consists of a sequence of letters and numbers that uniquely identifies your computer or mobile device; it may contain other information as well.

3. What types of cookies are there?

There are several types of cookies, namely:

- **Strictly necessary cookies.** These cookies are necessary for proper functioning of the website, such as displaying content, logging in, validating your session, responding to your request for services, and other functions. Most web browsers can be set to disable the use of cookies. However, if you disable these cookies, you may not be able to access features on our website correctly or at all.
- **Performance cookies.** These cookies collect information about the use of the website, such as pages visited, traffic sources, users' interests, content management, and other website measurements.
- **Functional Cookies.** These cookies enable the website to remember a user's choices – such as their language, user name, and other personal choices – while using the website. They can also be used to deliver services, such as letting a user make a blog post, listen to audio, or watch videos on the website.
- **Marketing cookies.** These cookies allow website operators to create, implement, and examine their digital marketing campaigns. Such cookies allow them to reach the right customers, analyse the productivity of their marketing campaigns, and offer you personalised advertisement.
- **Advertising or targeting cookies.** These cookies are usually placed and used by advertising companies to develop a profile of your browsing interests and serve

advertisements on other websites that are related to your interests. You will see less advertising if you disable these cookies.

- **Session Cookies.** These cookies allow websites to link the actions of a user during a browser session. They may be used for a variety of purposes, such as remembering what a user has put in their shopping cart as they browse a website. Session cookies also permit users to be recognized as they navigate a website so that any item or page changes they make are remembered from page to page. Session cookies expire after a browser session; thus, they are not stored long term.
- **Persistent cookies.** These cookies are stored on a user’s device in between browser sessions, which allows the user’s preferences or actions across a site (or, in some cases, across different sites) to be remembered. Persistent cookies may be used for a variety of purposes, including remembering users’ choices and preferences when using a website or to target advertising to them.
